ACKNOWLEDGEMENT NOTE:

Your insurance policy is a contract between you and your insurance company so we cannot guarantee payment on claims. Please remember that insurance is considered a method of reimbursing the patient for fees paid to the doctor and is *not* a substitute for payment. Some companies pay fixed allowances for certain procedures and others pay a percentage of the charge. It is *your* responsibility to pay any deductible amount, co-insurance, and all other balances not paid by your insurance company. It is also *your* responsibility to advise the billing office of any required pre-authorization needed for your insurance. It is customary to pay for all services when rendered. Any dishonored returned check will result in a $35 check charge. Required lab work or additional operative time in the surgery center will be billed separately to you by the lab or the surgery center. All charges related to additional procedures or complications for revisions are the full responsibility of the patient. This office will file for insurance benefits on plans in which we participate. We accept assignment on Medicare's fee schedule. Necessary information will be supplied to you to enable you to file your own claim on other plans. You are responsible to this office for all fees not paid within 45 days, regardless of insurance coverage, along with collection expenses and/or reasonable attorney fees. I have read and understood the above.
